About Bio-Gram

Since foundation in 2019, Bio-Gram has offered its customers In-Vitro-Diagnostic solutions for smear staining and sample preparation. With our mission to shape the future with uncompromisingly high-quality In-Vitro-Diagnostic systems, Bio-Gram is constantly setting new standards by developing and manufacturing innovative and reliable next-generation Diagnostic Solutions “Made in Germany”.

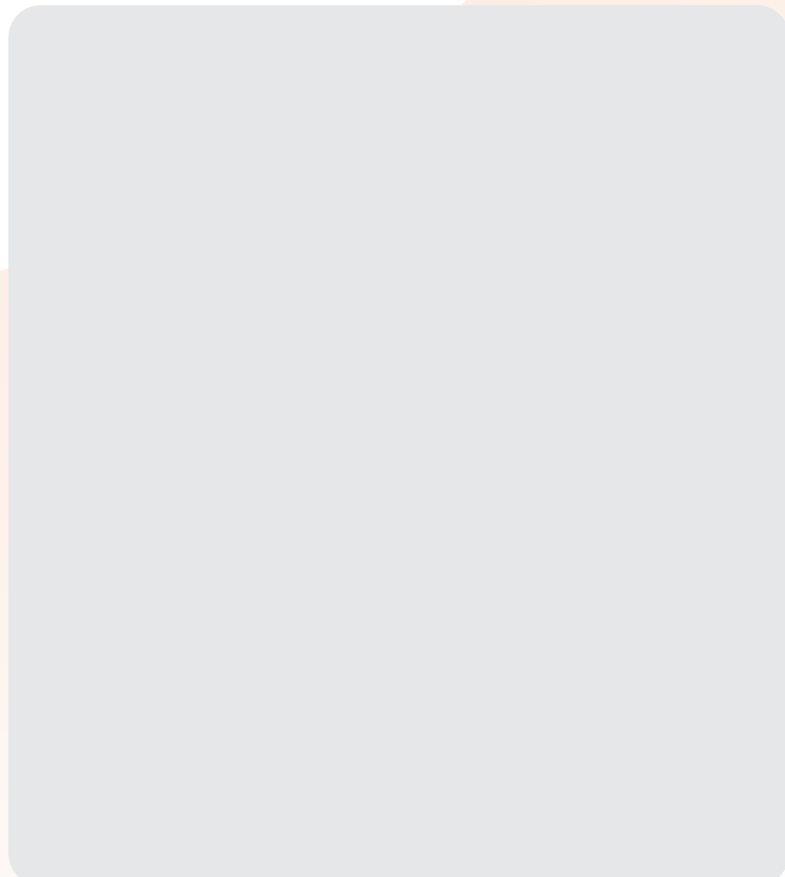

Our Team

Dynamic, flexible, focused.

Behind the innovative spirit of Bio-Gram is a dedicated team of professionals from different disciplines. We analyze problems from different angles and often approach them in seemingly unorthodox ways – this is what makes our groundbreaking solutions for In-Vitro Diagnostic.

Notes?

**INNOVATION
IN STAINING!
TOMORROW
IS NOW!**
